

ZEKE-8-12V

The surface mounted ZEKE-8 LED wall/step light features a slim-line, cast-aluminium body and cable gland for easy installation. The aluminium trim features a special chromate process before a polyester powder coated finish is applied, for extended wear in harsh external environments. With an IP65 rating, the ZEKE-8 features amazing downward illumination with minimal power consumption; A total of 8W of high intensity illumination. Particularly useful for external pathways and steps or any area in which recessed mounting is not an option. Now available in 12V DC models, to allow for outdoor applications such as planter boxes and front wall installations, where low voltage wiring has been used.
